The Ironmongery Experts

Automatic Door Operators

Commercial Automatic Door Operators.

The Gilgen FD 20 is a powerful and silent running swing door operator yet.

Gilgen swing door operators automatically open and close internal doors and large, heavy externally facing doors with ease.

With inherent strength and Swiss build quality, the FD 20 is ideally suited to tough applications such as hospitals, schools, retail centres, offices, garden centres and transport hubs. The versatile drive system enables smooth, contactless and hygienic automatic access, making doors significantly easier to operate for customers, patients and staff.

We can take your enquiry and convert into a full quote and even arrange installation with a Gilgen approved installer. A site visit may sometimes be required and a risk assessment.

KEY BENEFITS:

- Easily Operates Doors up to 250kg
- Handles Wind Loads up to 50mph
- Certified for use on fire doors, with safety sensors
- Integral Low Energy Operating Mode
- Sliding rod mechanism or push rods
- High quality cover with integral control buttons
- Fast installation through LCD display
